

Energy Saver

Heating, ventilation and air conditioning

Unlock savings of up to 50% off your building's biggest energy user

Heating, ventilation and air-conditioning (HVAC) is a significant energy user for many businesses. Gaining insight into maintaining and optimising your HVAC systems can translate into significant cost savings for your business.

What will you learn about?

This half-day practical workshop delivered by an energy advisor outlines implementation approaches to improve HVAC efficiency in your business.

Participants will be required to complete five 15-minute online modules outlining the fundamentals of HVAC and the main opportunities for energy savings, prior to the workshop.

Course details

Date: Wednesday 19 June 2019

Time: 9:30 am to 01:30 pm

Cost: \$100 (full-price), \$75 (ends 31 May 2019)
